About Me

Target-driven Junior Java Full Stack Developer and recent engineering graduate specializing in scalable Spring Boot microservices, high-performance REST APIs, and responsive React.js web apps. Proven track record in optimizing MySQL database queries and delivering secure, high-throughput enterprise full-stack solutions that solve critical user needs.

Skills

Languages: Java, JavaScript (ES6+), HTML5, CSS3
Frameworks and Libraries: Spring Boot, React.js, Bootstrap 5
Backend: REST APIs, Spring Boot
Databases: MySQL
Web Technologies: Responsive Web Design, DOM Manipulation, CSS Grid, Flexbox, Web Performance Optimization
Developer Tools: Git, GitHub, VS Code, IntelliJ IDEA
Spoken Languages: English, Tamil

Internship Experience

IPCS Global Academy Tamil Nadu, India
Web Development Intern *July 2025 – August 2025*

- Delivered 5+ production-ready client web pages using HTML5, CSS3, and Bootstrap 5, verified via Chrome DevTools cross-browser testing to increase retention.
- Built 10+ responsive user interface layouts, decreasing mobile bounce rates and improving cross-device navigation speed.
- Optimized page load speeds by 25% and reduced code redundancy by refactoring core JavaScript, HTML, and CSS modules.

Projects

ResQHub: Emergency Assistance Hub Personal Project – Full-Stack

- Engineered an end-to-end emergency assistance platform with React.js, JavaScript, Java, Spring Boot, REST APIs, and MySQL to streamline critical response coordination.
- Architected responsive frontend interfaces and implemented backend REST endpoints for reliable real-time application data transmission and incident tracking.
- Slashed dispatch response latency by 35% by optimizing complex relational SQL queries and Spring Boot transactional execution.

Guru Studio: Photography Website Personal Project – Frontend

- Developed a client-facing commercial photography website with React.js, JavaScript, HTML5, and CSS3 to showcase portfolios and automate client booking inquiries.
- Designed high-conversion gallery layouts across 5+ client categories, lifting user engagement and direct booking lead generation.

Notable Achievements

- Engineered and deployed **"Your Life, In Receipts,"** a viral data-visualization app, in 6 hours at the 200+ participant WebRush Hackathon using React.js.
- Slashed DOM re-renders by 40% during live inputs by implementing React memoization, eliminating application freeze.

Certifications

- **Infosys Springboard** (2024): Certifications in JavaScript, Java, and Spring Boot, covering programming fundamentals and backend development.
- **Oracle Certified Foundations Associate, Java** (August 2024): Formal credential verifying core Java syntax and object-oriented programming.

Education

VV College of Engineering Tamil Nadu, India
Bachelor of Engineering (B.E.) in Electronics and Communication Engineering *June 2022 – May 2026*
